### DETAILED ACTION

Applicant canceled **Claims 9 and 10**, without prejudice to Applicant's right to file divisional applications, via an Examiner's Amendment which appears below. Applicant canceled **Claims 4-8** via a preliminary amendment. Therefore, **Claims 1-3** are pending in this application. Furthermore, **Claims 1-3** are drawn to allowable subject matter and are in condition for allowance.

### *Reasons for Allowance*

Applicant's invention is drawn to compounds and compositions of the general formula I. The closest prior art is U.S. Patent Publication No. 2005/0222124, published October 6, 2005 (hereinafter, "Bromidge, et al."). Similar to Applicant's invention, Bromidge, et al. discloses benzenesulfonamide derivatives. However, while similar to Applicant's invention, Bromidge, et al. does not meet each and every limitation of the instant invention. Moreover, Bromidge, et al. does not teach any of the compounds falling within the genus claimed by Applicant nor does it render obvious any of the compounds falling within the genus claims by Applicant. Accordingly, Applicant's invention is allowed.

### *Examiner's Amendment*

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it must be submitted no later than the payment of the issue fee.

Art Unit: 1626

Authorization for this examiner's amendment was given in a telephone interview with James Kanagy on May 9, 2006. The application has been amended as follows:

1. Cancel **Claims 9 and 10.**
